Education

Rashtrasant Tukadoji Maharaj Nagpur University
BTech (Computer Science and Engineering)

October 2022 – June 2026

- CGPA: 8.04/10.0
- **Coursework:** Data Structure, Design and Analysis of Algorithms, Operating System, DBMS and Computer Network

Experience

Web Developer Intern

Nandanwan, Nagpur

ICEICO Technologies Pvt. Ltd.

Jan 2024

- Developed responsive, cross-browser layouts using HTML5, CSS3 (Flexbox), and Bootstrap to enhance mobile user experience.
- Built dynamic interfaces with JavaScript (ES6+), reducing form input errors by 45% through DOM manipulation and validation.
- Created reusable CSS and JS components, streamlining development and reducing code duplication by 35%.

Projects

ApnaVideo - Real-time video communication platform

github.com/ApnaVideo 🔗

- Developed **ApnaVideo**, a real-time video chat platform using **WebRTC** and **Socket.IO** with integrated messaging.
- Implemented **JWT + Firebase Authentication** for secure user sessions and access control.
- Built a responsive **React.js frontend** and a **Node.js backend** for signaling, session, and chat management.
- Ensured smooth **peer-to-peer video calls** using WebRTC, enabling direct media streaming without server relay.

GitForge – Git Command Simulation with AWS Integration

github.com/GitForge 🔗

- Built a GitHub-like platform simulating Git operations (**init**, **add**, **commit**, **push**, etc.) with real-time file tracking and user-specific repositories.
- Integrated **JWT authentication**, **AWS S3** for file storage, and **EC2** for backend Git logic and file management.
- Developed a responsive **React frontend** with user dashboards, deployed via **AWS Amplify**.

Wanderlust – A Full-Stack Room Rental Web Application

github.com/Wanderlust 🔗

- Developed **Wanderlust**, a full-stack room rental platform enabling users to list, browse, and review properties using the **MERN stack**.
- Integrated **Mapbox** for dynamic geolocation mapping, **Cloudinary** for media upload management, and implemented secure authentication with **JWT**, **Firebase**, and **Joi** for input validation.
- Built a responsive frontend and modular **MVC backend (Node.js/Express)**; deployed to production.

TECHNICAL SKILLS

Languages: Java, JavaScript, Python, SQL

Framework: Node.js, Express.js, React.js, Next.js, Tailwind CSS

DataBase: MongoDB, PostgreSQL

Cloud Services: AWS (Amplify, S3, EC2), Firebase

Developer Tools: Git, GitHub, Docker, VsCode, Microsoft SQL Server, Postman
